In this issue:

- PowerPlus Goes Global
- Now Shipping 120kW P+ Systems
- Expanded Customer Only Section
- NWL Offers Webinars

PowerPlus is truly Global

With a little over a month left in 2009, we will ship a majority of our **PowerPlus** systems outside North America this year. This is the first time this has happened, although this is the result of years of technical product evaluations and relationship building with key supplies worldwide. **NWL Pacific**, our partner in Korea, has had great success introducing this product into Asia. Stay tuned for further developments as we continue our global expansion.

120 kW PowerPlus

Our 120kW Power Plus is now available in two versions: 70kVDC, 1700 mADC and 83kV, 1445 mADC. More detailed information on this new product can be found [here](#).

Expanded PowerPlus Customer Section

We now have 15 translations of our manual (including UK English), as well as AutoCAD drawings for all our PowerPlus models. This information is restricted to PowerPlus customers or companies with ESP projects that will use this equipment. Secure username and password is available upon request. Please [contact us](#) for access.

Webinars for Training

NWL Precipitator
Product Offerings:

- [PowerPlus, our switchmode power supply](#)

- [Linear T/R sets](#)

- [Graphic Voltage Controllers](#)

- [Graphic Rapper Controllers](#)

- [Precip Control & Management System \(PCAMS\)](#)

- [Onsite Field Service](#)

- [Factory Repairs and Refurbishment](#)

We now offer webinars hosted by Helmut Herder, our VP Sales. Training is available for all our power supplies and controllers. In addition, Helmut can also provide overviews of our field service and repair programs. These presentations are interactive and tailored to your specific interests and needs. Please contact [Helmut](#) to schedule your webinar.

NWL wishes everyone Happy Holidays and a very successful 2010.
